

Emergency Harvest Permits with Route Authorizations

As in prior years, the State has declared an Emergency Harvest situation to run from September 10th and continue through December 31st of the current calendar year.

If a customer elects to run OVERWEIGHT, they will be required to obtain an Emergency Harvest Permit. In addition, the State is also requiring the customer obtain a Route Authorization every 14-days for each route they plan to take to ensure a safe route for the load is taken. Please note, the route found by the system is the safest route or route eligible based on the vehicle configurations entered and may not be the shortest route. For a shorter route, the customer should elect to travel with a legal weight and NOT an overweight load. If the customer is NOT running overweight, a Permit and Route Authorization is NOT needed.

Before you start

Before starting an Emergency Harvest Permit, customers will need to have their Vehicle Identification Card available (see example).

Information from this card will be required for entry on the Emergency Harvest Permit Application.

This document is provided as a guide to obtaining a no cost Emergency Harvest Permit and a Route Authorization. If further assistance is required, call the Permits Office at 217-785-1477 extension 1 or they can be contacted via email at dot.permitoffice@illinois.gov.

Illinois Transportation Automated Permits System

The Illinois Transportation Automated Permits (ITAP) System can be accessed by going to <https://webapps.dot.illinois.gov/ITAP/>. It is recommended you use a modern browser such as Chrome, Edge, or Firefox. To obtain an Emergency Harvest Permit and/or Route Authorization, you will need to go to this site and Log On. If you do not have a Logon, you must create one before you can obtain a permit. If you do not wish to create a logon, you must utilize a permit service to get your permit and route authorization or come into the IDOT location in Springfield to obtain a permit and route authorization.

Illinois Emergency Harvest

[Route Authorization](#)

Once the [Illinois Emergency Harvest](#) link has been selected, a screen with the list of provisions for an Illinois Emergency Harvest Permit will appear. The Customer must agree to these provisions by selecting the **I HAVE READ, AND AGREE TO ABIDE BY, THE PROVISIONS STATED ABOVE** checkbox before they can fill out the permit application:

ILLINOIS EMERGENCY HARVEST PERMIT

- **Before traveling with an Emergency Harvest permit, the permittee shall obtain a 14 DAY ROUTE AUTHORIZATION FOR EACH ROUTE USED.**

Failure to obtain a required 14 day Route Authorization could result in your load causing considerable delays and safety concerns for both your load and the motoring public. It may also result in a Violation of your Permit and/or loss of permit privileges with the Illinois Department of Transportation.

Permit loads are prohibited from crossing Ton Load Limit Structures.

- The movement of any HAZARDOUS MATERIAL (nuclear, medical or otherwise) is strictly PROHIBITED.
- All movements must be made strictly in compliance with provisions found on the face of this permit, as well as, all provisions found on the OPER 993 provisions form applying as if fully written on the issued permit.
- The permit, 14 day route authorization, Governor's Declaration of an Emergency and OPER 993 provision sheet must be carried in the vehicle and must be available for inspection by police or department officials.
- Movement utilizing this permit is valid on the system of state highways under the jurisdiction of the Department of Transportation excluding interstate highways.
- This permit is not valid on any highway or bridge posted for a load limit, or on any highway not maintained by IDOT. The right to use highways other than those maintained by IDOT is neither implied nor granted. The permittee must obtain permission from the proper local authority to use local streets or highways or from the Illinois Tollway if traveling over the Tollway system.

I HAVE READ, AND AGREE TO ABIDE BY, THE PROVISIONS STATED ABOVE.

The Emergency Harvest application is similar to prior years, however this year the State is capturing additional vehicle information so that the Routing Tool can find them an acceptable and safe route. Included on this application is an entirely **NEW** field to capture the **Tractor ID # or VIN number** that can be found on your Vehicle Identification Card. The Emergency Harvest Permit is ONLY valid for that vehicle. If a customer plans to run multiple vehicles **OVERWEIGHT** during the Emergency Harvest period, they must obtain a separate no cost permit for each vehicle.

Validations on the application will ensure that the information entered about the vehicle meets the limits set for an Emergency Harvest Permit and does not exceed them, potentially requiring a different permit type. The customer will also be notified if the configuration entered does not reach the limits requiring a permit (no permit required since vehicle is within legal limits).

When the Routing screen loads, the Customer will have to accept the ITAP Routing Disclaimer that all routing customers must accept.

ITAP ROUTING DISCLAIMER

Local Roads Disclaimer

The road network displayed on the map includes all state jurisdiction roadways, toll roads, and local roadways. The automatic route selection process may include local jurisdiction roadways, which will be displayed within a green band or Illinois Toll Authority toll roads, which will be displayed within a blue band. The Illinois Dept. of Transportation cannot authorize you to use local jurisdiction roadways, toll roads or cross local structures when traveling on state jurisdiction roadways. You are required by law to obtain permission from the local jurisdiction or Toll Authority prior to moving on local jurisdiction roadways, toll roads or when crossing local structures.

Data Disclaimer

The Illinois Department of Transportation and the State of Illinois hereby give notice to all users that these maps and the data included hereon, lack the accuracy required for site-specific uses. Since all boundaries and all data are based on information derived from multiple sources within and outside the Illinois Department of Transportation, the Department of Transportation and the State of Illinois make no representation, guarantee, or warrant, either express or implied, regarding the accuracy of these maps or the data furnished thereon, including, but not limited to, the condition of this product, this product's merchantability, or this product's fitness for any particular purpose or use.

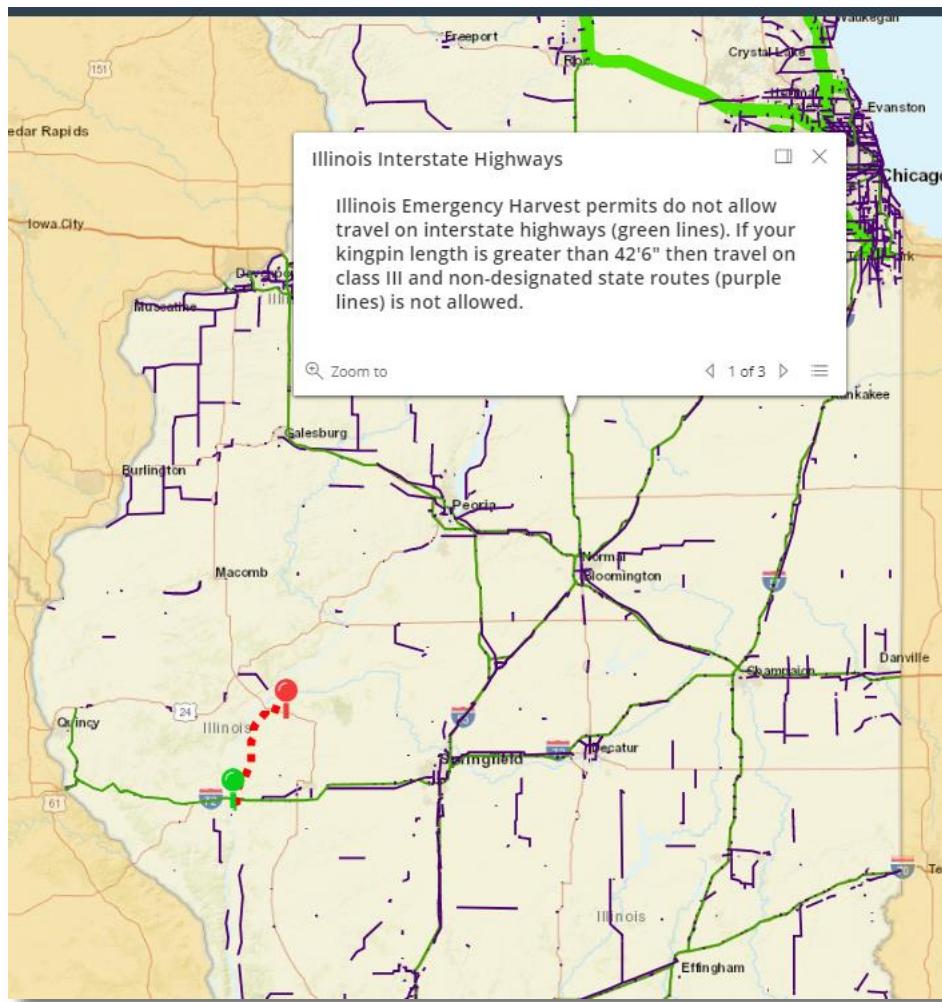

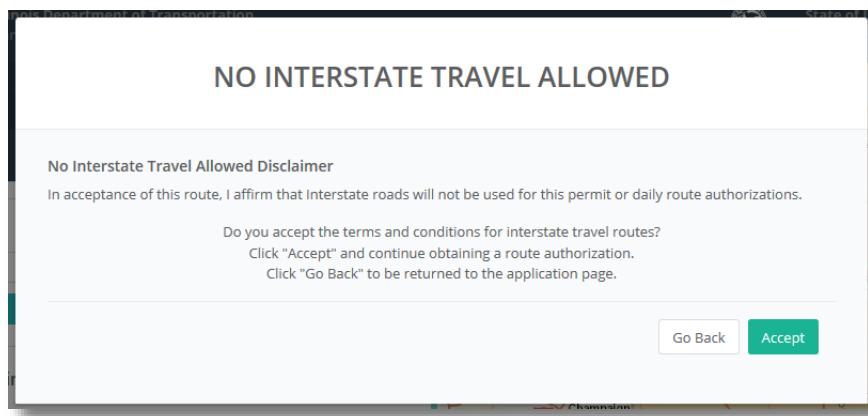

Do you accept the terms and conditions for local and toll road routes?

Click "Accept" and continue obtaining a route.
Click "Go Back" to be returned to the application page.

They will then be presented with a second pop up that indicates to them they are prohibited from travel on Interstates (**NEW**

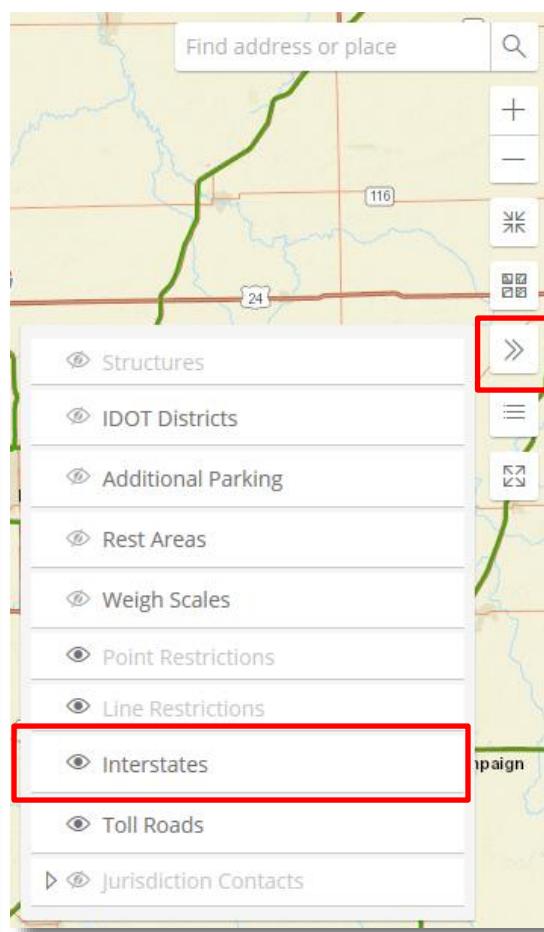

DISCLAIMER). They can select to go back to the application page if they are unable to comply with the required method of travel and no Route Authorization will be issued.

All the same Routing functions are available to an Emergency Harvest Route Authorization Customer to find an acceptable route including use of Waypoints. The system will prevent an Emergency Harvest Route Authorization Customer from being able to route via an interstate. In addition, permitted vehicles with a kingpin length of greater than 42' 6" will not be allowed to travel on non-designated state routes.

The map has been enhanced with a new layer (Interstates) to show which roads are NOT acceptable for Emergency Harvest Permit type travel. This Layer can be turned off by selecting the Layers tool and turning off the layer labeled Interstates

Ask Permit Office for Help

Route Points

Origin: Set Origin in Step 2 of the Route Locator below.

Destination: Set Destination in Step 3 of the Route Locator below.

Route Locator

Step 1: Choose Routing Options

Use toll roads for routing?

Start/stop on interstate JOBSITE? (set via map click)

Will your route use a stopover?

Route via scales?

The same process of entering the destination address, latitude and longitude, or using the Map Click tool should be followed for **Step 3: Set the Destination**. Once the Origin and Destination are set, the Customer should proceed to **Step 4: Add Waypoints**, which can be used to alter the system designated route. If no Waypoints are

The Customer must enter an Origin and Destination before a route can be found. To enter an Origin, select the **Next Step** button to proceed to **Step 2: Set the Origin**. Input the address, use the Map Click tool, or enter the latitude and longitude of the start location to enter the Origin point. Once an Origin is entered, the **Next Step** button will be available for the Customer to enter a Destination (Step 3)

Route Locator

Step 2: Set the Origin

Is the move starting in a state that borders Illinois?

Is the move starting within Illinois?

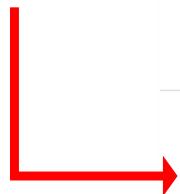

Set Origin via Address or ...

Set Origin via Address

desired, proceed to **Step 5: Find a Route** and select the **Find Route!** Button for the system to calculate the safe/permited route for their permitted load.

TIP! If this is a route the Customer will be traveling frequently, they can save time by going to the Load/Save tab and entering a name in the Save Current Route box and selecting the Save Button. This route will then be available to them the next time the routing screen is loaded, on any permit where a route is required. Please note that due to possible changes in restrictions, vertical clearances or truck dimensions, etc. the route saved may not be acceptable in some instances causing the system to reroute.

The screenshot shows the 'Routing' interface with the 'Load/Save' tab highlighted. Under 'User Routes', there is a list containing 'Chicago Interstates' and 'Ky to Winthrop Harbor 15 H'. Below the list are 'Delete' and 'Load' buttons. A red arrow points from the 'Save Current Route' text in the previous section to the 'Load' button.

The screenshot shows the 'Step 5: Find a Route' interface. It includes a 'Route Locator' section, a 'Find Route!' button, and 'Previous Step' and 'Next Step' buttons.

If the route found is not as direct, or the Customer feels a better route exists, they may attempt to return to a previous step (Step 4) and enter Waypoints or only run loads that are of legal weight.

Once the system finds an acceptable route, they will be returned to **Step 5: Find a Route** and will need to click the **Next Step** button and then **Accept Route** to Accept the identified Route.

The screenshot shows the 'Step 6: Accept the Route' interface. It includes a 'Route Locator' section, an 'Accept Route' button, and 'Previous Step' and 'Next Step' buttons.

Accept Selected Route and Conditions

This permit does not authorize travel on any local jurisdiction roadways, toll roads, local structures on state jurisdiction roadways listed in the route shown on this permit.

By acceptance of this permit, the permittee acknowledges prior to movement on or across any local jurisdiction roadways, toll roads, local structures on state jurisdiction roadways listed in the route shown on this permit, they must obtain permission from the entities having jurisdiction over these roadways or structures.

The County name listed after the route is for information purposes only. It does not imply that the county has jurisdiction over that route.

Do you accept this route you have selected as shown and the conditions above? Click "Cancel" to change your route.

Accept

Cancel

The Conditions pop up will appear and need to be accepted to be returned to the Route Authorization application page.

The Customer will have to confirm their information entered on the Route Authorization application is accurate before it will issue.

Please Verify

In acceptance of this permit, I affirm that the information provided in the permit application is true and correct to the best of my knowledge and belief and that I will abide by all laws, rules and regulations governing such movement; and the vehicle identified in this permit application is licensed in accordance with provisions stated in the Illinois Vehicle Code (625 ILCS 5/3-400 etc.).

Cancel

Confirm

If Cancel is selected, the system will return the Customer to the Routes grid and the route just created will be in a Not Submitted Status. If the Customer selects to go back and get the Route issued (by selecting the [Edit](#) link), the route will have to be found again to ensure no restrictions have been added to the route before the Route Authorization can be issued. If the Origin and Destination had been entered and saved with the Route Authorization Application, it will be saved and not require re-entry. The saved Route Authorization can be found in the **Issued Emergency Harvest Permits** page under the Emergency Harvest Permit they are associated with.

All Emergency Harvest Permits that have been successfully issued can be found by going into the newly created **Issued Emergency Harvest Permits** link on the left navigation menu. If an Emergency Harvest Permit was saved, but not Issued, it can be found in the **My Permits** page with other permits of any type that has been started by not completed.

On this screen, they will see a grid of all the issued Emergency Harvest Permits for the logged in Customer. The Customer can select the Details link to view the issued Emergency Harvest Permit on screen or the Display link to see the PDF of the issued Emergency Harvest Permit as long as it is in effect.

Issued Emergency Harvest

			Ref #	Permit #	Permittee	Submitted Date	Effect... Date	Expir... Date	Issued Date	Status
Details	Display	Routes	0000000	00000000		2018 10:20 AM	9/1/2018	12/31/2018	/2018	Issued
Details	Display	Routes	0000000	00000000		2018 10:11 AM	9/1/2018	12/31/2018	/2018	Issued

Clicking on the Routes link takes the Customer to a new screen with a grid of the 14-day route authorizations that exist for that Emergency Harvest permit.

Route Authorizations for Permit# 00000000

[Create New Route](#) 

		Display Route	Ref #	Permit #	Submitted Date	Issued Date	Effect... Date	Expir... Date	Status	In Use Status	Origin/Destination
Details	Edit		0000000				9/5/2018	9/11/2018	Not Submitted		Pump Plant Rd, Meredosia, IL, 62665 / 7502 S Bluff Springs Rd, Virginia, IL 62691
Details			0000000				9/1/2018	9/7/2018	Public Contact Response Required		Pump Plant Rd, Meredosia, IL, 62665 / 7502 S Bluff Springs Rd, Virginia, IL 62691
Details	Edit		0000000				9/1/2018	9/7/2018	Not Submitted		
Details	Display	Route	0000000	00000000-00000	/2018 10:24 AM	'2018	9/1/2018	9/7/2018	Issued		Pump Plant Rd, Meredosia, IL, 62665 / 7502 S Bluff Springs Rd, Virginia, IL 62691

There is a link just above the grid for the Customer to be able to easily order another/new 14-day Route Authorization for that specific Emergency Harvest permit. On this screen the customer can do the following:

- View the Details of all Route Authorization applications and issued route permits
- Print any Route Authorizations that are still in effect for that day (not expired)
- Display the PDF copy of the Route Authorization, as long as it is still in effect (not expired)
- View the Route accepted on the Route Authorization
- Finish the issue process on any Route Authorization in a Not Submitted or Response Needed (type) status.

Requirements for 14-day Route Authorizations:

- An Emergency Harvest Permit is required to obtain a Route Authorization for every route traveled on.
- If the same vehicle will be used on the same route repeatedly, only the one Route Authorization per Emergency Harvest Permit is needed for that 14-day period.
- If the same vehicle will be used on multiple routes, then a Route Authorization is needed for each route that will be traveled in that 14-day period with that vehicle.
- The customer is only able to obtain a 14-day Route Authorization to start on the first day of travel. They are not able to obtain a Route Authorization in advance (i.e. they can't order a months' worth of RA's on a single day.)

Customers may also order a Route Authorization by selecting the Order Permit link on the Left Navigation Menu and clicking the Route Authorization link located just under the Emergency Harvest link.

The screenshot shows the IDOT Permitting System Menu. On the left, a sidebar lists links: IDOT Home Page, Permit Home Page, Order Permit (which is highlighted with a red box), Getting Around Illinois Maps, Trucker Information, Contact Permit Office, and Apply for Escrow. The main content area has a blue header 'Permitting System Menu' and a sub-header 'Please select the Permit Type you wish to apply for:'. It lists three permit types with radio buttons: 'Oversize/Overweight (OS/OW) Single or Round Trip' (with a link to 'Agricultural Commodities (40 day permit)'), 'Semi-Annual Repeated Crossings of State Maintained Roads', and 'Limited Continuous Operation (LCO - Annual/Quarterly)'. Below this is a large blue header 'Illinois Emergency Harvest' with a blue link 'Route Authorization' underneath it. A red arrow points from the 'Order Permit' link in the sidebar to the 'Route Authorization' link in the main content area.

They will be prompted to enter their Emergency Harvest Permit number so that it can associate the Route Authorization with the correct Emergency Harvest Permit and complete all of the routing steps stated above.

FOR THE DEPARTMENT: Amy J. Eller, Engineer of Operations

**Illinois Emergency Harvest
Permit 00000000**

Illinois Emergency Harvest Declared by the Office of the Illinois Governor

Pursuant to Section 15-301(e) of the Illinois Vehicle Code (the Code), this is your Emergency Harvest Permit. This permit shall apply to the registered vehicle identified on this permit that is eligible to obtain permits under this Section, including vehicles used in private or for-hire movement of divisible loads of agricultural commodities during the declared emergency harvest time period. This permit along with the OPER-993, a copy of the Emergency Harvest Declaration and weekly Route Authorization must accompany the load.

All other restrictions that apply to permits issued under this Section shall apply to this permit during the declared time period.

Vehicles operating under an Emergency Harvest Permit shall not be in violation of the Code's Section 3-401 (d-3).

Emergency Harvest Permits are only valid on Federal and State highways under the jurisdiction of the Illinois Department of Transportation.

These moves are not valid on Interstate highways.

This permit does not cover routes under the jurisdiction of local authorities.

This vehicle may not exceed the posted limit on any bridge.

Before any move made under this permit authority, a weekly Route Authorization for each route traveling must be obtained and the route issued shall be followed.

All movements shall be made strictly in compliance with the General Provisions listed on the Page 3 of this document and OPER 993 Special Vehicle Movement Permit Provisions, applying as if fully written herein.

This permit shall not be transferred, extended, or altered.

Illinois Emergency Harvest Permit 00000000

Illinois Emergency Harvest Declared by the Office of the Illinois Governor

General Provisions

All movements must be made strictly in compliance with OPER 993 Special Vehicle Movement Permit Provisions Form applying as if fully written herein.

OPER 993 can be found online at www.illinoistruckpermits.com.

Pursuant to 5/15-301(f) of the Illinois Vehicle Code, the original permit and the form OPER 993 are required to be carried in the vehicle or combination of vehicles to which it refers (an electronic version is acceptable) and shall be open to inspection by any police officer or authorized agent of any authority granting the permit, and no person shall violate any of the terms or conditions of such permits. This permit along with the OPER-993, weekly Route Authorization and a copy of the Emergency Harvest Declaration shall accompany the load.

1. This permit grants authority only for the operation of the vehicle specifically indicated in the application; substitution of any vehicle or load will render the permit null and void.
2. This permit has been issued by the Department with the understanding that: (1) All legal requirements concerning operational authority imposed by the Illinois Motor Carrier of Property Act or the Interstate Commerce Commission have been complied by the applicant; (2) The vehicles have been properly licensed in accordance with Illinois law for the gross weight being transported; (3) Both the driver and owner of the vehicle to be moved have met all financial responsibility requirements imposed by law and: (4) The operator is properly licensed. When this permit has been acted upon by the permittee such action shall be deemed an unequivocal allegation by the permittee that all operational, licensing and financial responsibility requirements have been complied with.
3. Maximum allowable width and height are 8 feet 6 inches and 13 feet 6 inches respectively.
4. Axle weight tolerances do not apply. Penalties for exceeding the allowed weights shall be assessed in accordance with Section 15-113.2 of the Illinois Vehicle Code for all weight in excess of the permitted weights.
5. The legal maximum gross truck weights contained in Section 15-111 of the Illinois Vehicle Code apply.
6. The movement of any HAZARDOUS MATERIAL (nuclear, medical or otherwise) is strictly PROHIBITED.
7. If ANY MOVEMENT utilizing this permit exceeds the specified dimensions and/or weights specified by this permit, then said permit is no longer valid.
