Emergency Purchase Details

Emergency Category (Click List Box to re-select the appropriate option(s)).

To prevent or minimize serious disruption in critical State services that effect health, safety, or collection of substantial State revenues
Immediate expenditure is necessary for repairs to State property to protect against further loss or damage
Involving threat to public health or public safety

Reason for selection of this particular contractor/vendor:

After contacting multiple firms, we received estimates and lead times from 2 firms for pump replacement. Henson Robinson Company quoted \$114,966 with an 8-10 week lead time. Pump Repair Specialists, Inc. quoted \$123,965 with a 10-12 week lead time.

Henson Robinson has been selected based on estimated cost and lead time.

Description of services and/or supplies to be provided:

The pump and motors at the Mt Pulaski pump house are failing. These pumps keep the viaduct on IL 121 from flooding. If this location floods, there is no good detour to get around it. Services are needed to repair/replace the pumps and motors. The initial repair work completed in February has enabled the pump house to continue functioning until pump replacement can be completed.

Is there an existing State contract available for the required services and/or supplies? Yes No
