

Emergency Procurements

In accordance with standards set by rule, a purchasing agency may make emergency procurements without competitive sealed bidding or prior notice when there exists a threat to public health or public safety, or when immediate expenditure is necessary for repairs to State property in order to protect against further loss of or damage to State property, to prevent or minimize serious disruption in critical State services that affect health, safety, or collection of substantial State revenues, or to ensure the integrity of State records. Illinois Procurement Code (30 ILCS 500/20-30)

To view emergency procurements that occurred after July 1, 2016 please visit the Transportation Bulletin (<https://webapps.dot.illinois.gov/WCTB/ConstructionSupportEmergencyProcurement/BulletinItems>).
