

# Addendum #1

## Cancelation of Solicitation

March 1, 2018

Addendum one is to cancel the solicitation for Trailer Mounted Engine Generator Systems and Transfer Switches, 2018-09.

The only bid response received did not offer one of the listed, approved manufacturers' engine generators sets as required in the special provisions.

The special provisions will be modified to allow consideration of other manufacturers as equivalent to the ones specified.

A new solicitation opportunity will be issued in the near future.
