

Addendum #1

Brush Chippers - 2018-05

November 20, 2017

The specifications for the 12" capacity, Diesel-Powered Brush and Tree Chipping Machine is under specification 301-60-15, not 301-60-20 as shown in the attachment within the invitation for bid. This specification also incorrectly references a 19" chipping machine in the header on pages 2-7 and instead should read a 12" chipping machine. The specifications content for the 12" capacity machine is correct.

Please bid accordingly.
