

LETTING YOU KNOW

The Illinois Department of Transportation (IDOT) is interested in maintaining close communications with industry. This newsletter highlights subjects that we believe will be of interest to you.

No. 180

March 11, 2022 Letting

PEV Program

The 2021 Profile Equipment Verification (PEV) program will be conducted by Applied Pavement Technology, Inc. this spring on behalf of the Bureau of Research. The PEV program is required for any Contractor or Subcontractor conducting surface profile testing using the 0.00-inch blanking band or the International Roughness Index. These projects include any of the following:

- Contracts let after January 1, 2013 including work under Articles 407.09 or 420.10 of the Standard Specifications for Road and Bridge Construction,
- Contracts including the Special Provision for Surface Testing of Hot-Mix Asphalt Overlays.
- Contracts including the Special Provision for Surface Testing of Pavements - IRI.

The 2021 PEV program will be scheduled in April and May. Actual dates will be posted in future bulletins. Participants in last year's program will need to have their profile equipment re-verified (this is an annual program).

If you or subcontractors have profile equipment to be verified, please complete the form at the following link by March 1, 2022 to register.
